Domestic Use

There's a simple reason why you'll see so many Honda products still hard at work after many years of service. **Ours are built better to last longer.**

That's not just an idle promise. It's fact. Honda customers deserve complete peace of mind. Honda lawnmowers are supported with the longest and most comprehensive warranties in the industry. Our electric lawnmowers (used in a domestic environment) come with 2 year warranty as standard.

* Subject to domestic use in accordance with the guidelines in the owners manual.

Clean cut

Our electric lawnmower range brings Honda style, quality and ease of use to small gardens.

Offering a choice of 33cm or 37cm cut models, these powerful yet light and easy to use lawnmowers incorporate Honda expertise from our market-leading petrol models.

Under that sleek exterior, an improved blade and fan-assisted airflow ensures a clean cut and collects every last clipping for a neat and tidy finish, every time. These are also our quietest lawnmowers. Combined with comfortable controls and weighing up to just 16kg they're doddle to use, lift and store. The larger HRE370 also offers precise cut height adjustment with a single lever. Getting a great lawn has never been easier.

Packed with features

You'll find all sorts of clever features on our electric range that make it safer, more comfortable to use and more durable – after all, it's a Honda.

Folding handle

Quick and simple folding for easy storage and transporting. The quick-release knobs are also positioned facing inwards to avoid catching bushes or branches.

Thermal cut-off protection switch

Safely protects the motor from burning out allowing it to cool before further use, preventing any permanent damage.

Stylish, quiet design

The sleek and stylish motor cover further reduces noise – better for you and your neighbours.

Easy bag removal

Stone deflector simply lifts forward between the bars for easy removal and location of the grass bag.

Large fabric grass bag

Our collapsible fabric bag gives excellent airflow for better collection and an impressive 35 or 27 litre capacity for less frequent emptying.

Fan-assisted cutting and collecting

The incorporated fan helps the grass blades 'stand up' before cutting. Our unique deck underside design then provides improved airflow to maximise collection and minimise clogging.

New blade shape

Improved design is significantly quieter, more robust and durable.

Full width drive lever

For easy and comfortable operation, using either one or both hands.

Cable tidy tag

A sliding tag keeps the included 15m power extension cable tidy and away from your feet and the cutter deck.

Carry handle

Our lightest model weighs just 12kg, and with an integrated carry handle, both the HRE 370 and HRE 330 are easy to lift and store.

Adjustable cut height

With the HRE370 a single lever gives a choice of 5 height settings for the perfect cut. A quick adjustment to the axle gives you 3 height settings with the HRE330.
